

MAXI-TREAD™

The Complete System

CAST/POST-OPERATIVE SHOES

Shock Absorbing air cushioned sole with improved rocker - provides a more natural comfortable gait

Extremely wear resistant sole - for longer life

Maximum tread design - for greater safety

Non absorbent materials - dries quickly when wet and helps control odours

High quality nylon upper - for maximum stability and resistance to wear and tear

Better strap positioning - provides more secure fastening and permits a wider range of adjustment

Designed for use as both a cast and post operative shoe - to reduce inventory requirements

Available in all sizes - including small pediatric size

ANTI-SLIP SOLES PROVIDE SUPERIOR SUPPORT
