

ORTHO-PAD™ CUSTOM-FIT™

Soft Goods

Ortho-Pad™ soft goods are designed to provide maximum patient comfort at a much lower cost and greater convenience for the healthcare provider.

A ROLL OF UNLIMITED OPTIONS!

The Ortho-Pad™ system eliminates the need to order and stock a much larger number and assortment of pre-made soft goods.

Imagine, one Ortho-Pad™ roll can provide: cervical collars, clavicle straps, arm slings, wheelchair and posture supports, wrist and ankle protectors, bed sore mitigation and many other possibilities.

Ortho-Pads™ are both comfortable and supportive and latex free. They are constructed from a medium density foam with a soft breathable fabric cover that is easily cleaned. A hook & loop closure system provides practical and unlimited adjustment.

So easy to use! All Ortho-Pad™ rolls measure 204" (518cm) long and are packaged in convenient clearly labeled dispenser boxes. You simply select one of five available widths and cut off the required length. A hook piece then fastens the padding to the appropriate tension.

SIZING CHART					
Width	2 1/2" (6.4cm)	3" (7.6cm)	3 1/2" (8.9cm)	4" (10.2cm)	4 1/2" (11.4cm)
